## DAHLIAS.

## GRAND NEW SINGLE DAHLIA.

9/- per dozen. 1/- each.

**SERRATIPETALA "Duke of York."**—This New Single Dahlia, raised by us, will be the forerunner of an entirely new race. It is of a glowing scarlet; the petals instead of being flat, are, as it were, pleated, with the edges divided into points, generally two and sometimes three points to a petal, giving a fish-tail or scalloped appearance. It is of remarkably free habit, and the petals *never drop*, which is the well-known drawback with the ordinary Single Dahlia. This makes it of great value for cut bloom, and room and table decoration. Wherever exhibited it has won great admiration.

## SINGLE DAHLIAS.

40/- per 100; £19 per 1000.

JAMES KELWAY (*Kelway's*), a most striking variety, pure white, each petal distinctly edged with purple-lake  
 BRUTUS (*Kelway's*), crimson, rayed with vermillion  
 DUCHESS OF ALBANY (*Kelway's*), silvery flesh.  
 A most lovely flower, with broad petals, and well formed

DR. BENSON (*Kelway's*), vermillion  
 DUKE OF TECK (*Kelway's*), amaranth, marbled with orange in the centre of the flower, perfect shape  
 GENERAL GRAHAM (*Kelway's*), yellow  
 HON. MR. CHAMBERLAIN (*Kelway's*), buff  
 JAMES SCOBIE, yellow, striped scarlet

LORD R. CHURCHILL (*Kelway's*), crimson, shaded violet  
 MR. AINSLIE (*Kelway's*), scarlet, well reflexed  
 ORCAS (*Kelway's*), red and white striped  
 PRINCE LOUIS (*Kelway's*), yellow, white edge  
 PRINCESS CHRISTIAN (*Kelway's*), yellow, cream edge  
 PURITY (*Kelway's*), pure white, very good

## SINGLE DAHLIAS.

25/- per 100; £12 per 1000.

## NEW CACTUS DAHLIAS.

12/- per dozen.

APOLLO, crimson lake, a grand flower of the *Juarezii* type, habit perfect.  
 BERTHA MAWLEY, cochineal colour, a magnificent flower with long tapering spiral florets, resembling a Japanese Chrysanthemum; the blooms stand upright upon stiff wiry stems well above the foliage.  
 Countess of Radnor, the finest blending of delicate hues ever seen, all that could be desired in the way of quality of bloom.  
 KAISERIN, sulphur-yellow, outer florets tinged with lemon; quite a Cactus in shape, and very constant.

Lady Skelmersdale, pale primrose colour; a beautiful flower, and very free.  
 Miss Violet Morgan, base of florets fawn or orange, shaded towards the edge with a delicate tint of pink.  
 Mrs. Basham, a most charming flower of the decorative type; a grand companion in colour to Countess of Radnor, very free blooming, and erect in habit.  
 Wiltshire Lass (Decorative type), French white, a most useful variety for cutting purposes; the flower stems are long and stiff.

## CACTUS DAHLIAS.

## DELPHINIUMS.

We have, through careful hybridization, made more advance into new paths of beauty with the Delphinium than has been made with any class of plants in recent years. Those who have seen our Choice New Hybrids exhibited in London will bear us out when we make this statement; those who have not yet seen them can really have no idea of the difference existing and the improvement in form, colour, and robustness upon the better known older sorts.

## GAILLARDIAS.

These named Gaillardias which we have had the pleasure of introducing to the trade and the public, are a revelation when compared with the seedlings and the one or two named sorts which were all that were originally known, being far superior both in size of flower, robustness of habit, intensity and variety of colour, and variety of form. There is hardly any plant so useful for cut flower and market purposes.

All the Varieties mentioned are of our own raising.

## PYRETHRUMS.

Pyrethrums are in our opinion the most useful hardy plants for cut flowers and borders that exist. The double white, crimson, and bright pink varieties are particularly to be recommended. We hold by far the largest and finest collection, and are open to consider any reasonable offer where large quantities are required. We can supply either fine clumps from the ground, or strong plants in pots.

## KELWAY'S NEW MILK WHITE ARTICHOKE.

**QUITE A NOVELTY**, far whiter and very much smoother than the old purple Jerusalem Artichoke. The fact of its being a better colour renders it a greater favourite when cooked, and being less dented, through the eyes being set nearer the surface, the root is more edible throughout, and there is less waste. **The Creamy Flavour** attached to this is much before that of the purple, rendering it a great acquisition. It is liked by those people who are not partial to the old variety. We have been growing this largely since its discovery, and offer it to the trade at per cwt.
